

RUBBER DINGHIES RENTAL

Rules to be followed to go on a safe and pleasant trip by rubber dinghy.

Signing of the contract: *the client is responsible for the boat piloting and for the people carried. The client is liable for any damage caused to the boat during the rental.*

Departure: 8.00 - 8.30 am

Return: 5.30 pm.

If the client returns in port after 5.30pm, A PENALTY PROPORTIONAL TO THE DELAY WILL BE APPLIED

Checks before departure:

- ⤴ Documentation on board.
- ⤴ Equipment on board (emergency and safe-living equipment).
- ⤴ Propeller

Departure / Return to the port:

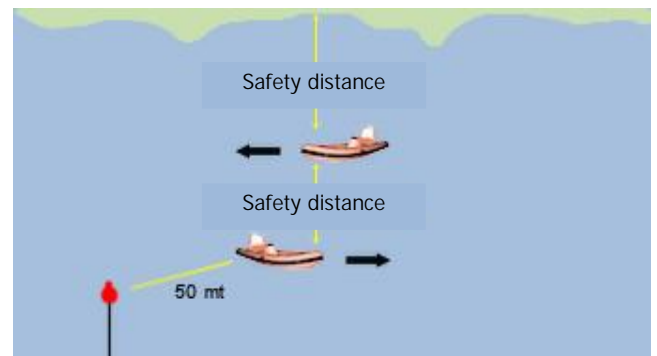

- **Go at minimum speed.** Perform/do all the manoeuvres carefully, at minimum speed.
- Accelerate/decelerate at about 200 mt from the entrance to the port/harbour
- Keep/maintain **right-centre** entering and leaving the port
- Check of the boat at the departure and at the return (any damage will be paid by the client)

Navigation:

→ **Navigate at about 200 mt from the coast/shore and from the beaches**

- Stay at least 50 mt away from the divers' marker buoys and other buoys/bobbers
- Keep/maintain the right and the safety clearance/distance when you run into/meet all other boats.
- Slow down when you are close to waves caused by other boats.
- Keep/maintain right-centre entering and leaving the corridor of buoys.
- **DON'T ENTER or GO TOO CLOSE TO THE CAVES YOU'LL FIND DURING YOUR EXCURSION.**

Arrive / Departure - Embarkation / Disembarkation from the beach:

- Follow the corridor (of embarkation and disembarkation) marked from the buoys at minimum speed
- **Switch the engine off at about 10 mt from the shore and lift it up** (you must see the propeller out of the water). The boat should arrive to the shore without any problem. If you understand that the boat can't arrive to the beach, you can also use the **paddles** you'll find on the rubber dinghy.
- Once you have finished the disembarkation, get/drive away from the shore with a push, **put the propeller down in the water and turn the engine on at minimum speed.**
- Put/drop the anchor out of the corridor on the right or on the left. / Moor the boat out of the corridor on the right or on the right by using the corresponding anchor.
- When the anchor touches the seabed, give 7/8 mt more of rope and tie it to the bow bollard.
